Electrical Connection	15Amp Plug & Lead
Packaging + Shipping	
Shipping Length	1200 mm
Shipping Width	1000 mm
Shipping Height	1600 mm
Shipping Weight (Gross)	1.48 kg

MULTI ALFA is a fixed modular extraction unit without wheels and is provided with a minimum of 3 filter bags. It is made of robust painted sheet metal and has a **totally modular structure**, which means that with this extraction unit allows you to **add new filtering elements** at any time. You will not be forced to purchase a large machine immediately; you can upgrade it when you will really need to, in a simple and economic way. The special feature of being able to enhance its filtering capacity adds great value that will allow you to preserve your investment in the long run: MULTI ALFA will adapt to your actual needs over time. The machine is fitted with **dampers to adjust the extraction flow**, which allow all the collection bags to be filled evenly when adjusted properly. MULTI ALFA is provided with a 1.5 m power cable and a motor protection circuit breaker. The upper filter bags can be replaced with special **cartridge filters** to retain the finest dust. Installing the filter is simple and does not require any change to the machine. **Applications:-**  
The ideal machine for those who need **great extraction capacity at a low cost**.  
For those looking for an extraction unit that fulfills your actual requirements and can be enhanced over time.

**Features:-**  
The MULTI ALFA extraction unit is provided disassembled. Each item is packaged in a sturdy waterproof cardboard box. Therefore, consisting of small boxes, it can also be conveniently transported in a small vehicle. Assembly available at additional cost  
Made in Italy - All motors and machines are manufactured entirely in Italy, with top quality Italian or European components. They are highly reliable machines.

Filtering Sack: 3 x A 500mm

Suction Hood: Å 250mm

**Optional Accessories:-**

Cartridge Filter for finer dusts
