Shipping Weight (Gross)	1.48 kg

Features

System includes a 16" long, machined aluminium Handle with an anti-vibration grip that features a unique forward chucking system

Simply unscrew the knurled chuck collet to insert any of the three supplied shafts with carbide cutters, tighten the chuck collar, and you are ready to turn

Three, 8-3/8" steel Shafts are supplied with either a Circle, Square or Diamond shaped carbide Insert Cutter secured to their end with a T20 screw

The finely machined shafts have bottoms that are milled with a flat, and 2 side bevels for extra stability on the tool rest when turning

The two side bevel surfaces also give the user extra support when the cutter is shifted to an angled skew position for shear cutting action
