Model	
Type	Hot Melt Adhesive - Slugs
SKU	8001807
Part Number	Unibord 786/3 TRANSLUCENT
Brand	Unicol
Size	63mm x 26mm
Technical - Main	
Softening Range	105-115Â°C
Temperature on Roller	190-220Â°C
Temperature in Tank	170-190Â°C
Dimensions	
Product Length	26 mm
Product Width	63 mm
Country of Origin	
Manufactured in	Italy
Packaging + Shipping	
Shipping Weight (Gross)	6.0 kg
Packaging	Cardboard Box

Solid hot melt EVA based adhesive supplied in cartridges. Characterised by high yield value and transparent glue line. It is a product with high versatility due to its excellent characteristics of melting speed, open time and viscosity.

### Applications

Suitable for bonding edges made of veneer, wood, PVC, ABS, laminates, polyester and synthetic resins.

Suitable for FESTOOL and / or similar hand held edgebander machines.

### Specification

Cartridges Diameter: 63mm

Cartridge Length: 26mm
