

## 200MM (8") WET STONE / WATER COOLED SHARPENER & BUFFER OT-WSS-200 BY OLTRE

SKU	Option	Part #	Price
8001841		OT-WSS-200	\$295

Model	
Type	Water Cooled / Wet Stone Sharpener
SKU	8001841
Part Number	OT-WSS-200
Barcode	745240316688
Brand	Oltre
Size	200mm (8")
Technical - Main	
Power Source	240V 50Hz Single Phase
Arbor	12 mm
Base Size	292 x 255mm
Diameter	{"value":200.0,"unit":"mm"}
Sanding Disc Size	200 mm
Sanding Disc Speed	95RPM
Dimensions	
Product Length	432 mm
Product Width	254 mm
Product Height	305 mm
Product Weight (Net Weight)	10.4 kg
Country of Origin	
Manufactured in	China
Features	
Standard Inclusions	1 x Wet Grinding Wheel (200mm x 40mm x 220G) - Vitrified Aluminium Oxide,, 1 x Leather Stropping Wheel (200mm x 30mm),, 1 x Universal Support Rest (12mm Diameter),, 1 x Water Reservoir,, 1 x Tool Holder Jig,, 1 x Angle Guide,, 1 x Tube of Honing Compound
Workshop (Site) Info	
Electrical Connection	10Amp Lead & Plug
Power Supply Cord	1.8 m
Other Requirements	Benchtop
Packaging + Shipping	
Shipping Length	385 mm
Shipping Width	370 mm

The Wet Stone / Water Cooled Sharpener is ideal for putting a precision edge on hand tools blades. Its slow rotation eliminates any chance of ruining edges from overheating. The Buffer is very versatile. With different grades of applied compounds, the wheels can put a quick, final honed edge on tools, or buff a high gloss shine on woods, metals, and other materials. Useful on shop tools, household items, machinery or vehicle parts, sports equipment, and so on.

200mm (8") OT-WSS-200 Wet Stone / Water Cooled Sharpener provides woodworkers with a system that efficiently removes steel and sharpens tool edges without any overheating that can ruin blades, thanks to the slow-turning abrasive wheel and water cooling action. A holding jig makes putting the right cutting angle on tools easy and consistent, every time. Leather strop removes any burrs and puts the final razor-sharp, final honed edge on tools - chisels, plane blades, turning & carving tools, knives, axes, and more.

### Features

1/4HP / 180W motor with forward and reverse rotation  
Steel support bar repositions for horizontal or vertical use with jigs

The jig holds tools and slides along the bar for solid, consistent support

220 grit abrasive wheel will put precision edges on big or delicate tools
