The optional Viking Arm® CIK is ideal for quick and precise installation of wall cabinets. This one-man operation eliminates the need for a second (or third!) person to lift up to 60cm / 23.7 inch and hold an object up to 50 kg / 110lbs per kit in place. It gives the user the ability to work independently, fast, and with the precision of the Viking Arm®.

The CIK is made of light-weight fiberglass PA and non-slip/non-scratch TPE. The kit comes with both a non-slip/non-scratch Base Pad and a Lifting Pad. CIK dimensions 243 – 385 x 115 x 104mm. 0.640kg.

Specification

Made of light-weight fiberglass PA and non-slip/non-scratch TPE.

Kit includes a non-slip/non-scratch Base Pad and a Lifting Pad.

CIK Dimensions: 243 – 385 x 115 x 104mm
