### Black Wax - Antique Effects Wax

Unique blend of natural and renewable waxes, oils and carbon black pigment. Use as an initial coat of wax on raw timber to provide a black washed, stained look. Alternatively, you can use it over another finish to add an antiquing effect. Excellent over chalk and mineral paint finishes. This is a true black finish, rich in colourant. Follow up with a coat of Carnauba Polish Clear for added protection and to lock colour in.

Try this in white.
