## WOODWORKING METAL DETECTOR LITTLE WIZARD 2 BY WIZARD

*The most economical Portable metal detector available!*

Like any specialised tool this detector requires proper tuning and understanding of how to properly use. It's a Wizard but it is not magic!!! It's a real life metal detector that works very well when used as suggested. So please read and understand the directions. For Best Detection it requires a new 9 volt battery (not lithium batteries) with at least 8.6 volts. Please do not just grab a battery out of your drawer and flop in. Save yourself time and detect metal with a brand new shiny full strength (non lithium) battery. A fresh battery is your best friend in metal detection!!!

The Little Wizard is a precision hand held metal detector designed especially for woodworkers. Perfect for scanning recycled wood for screws and nails before planing, routing, sanding or sawing, and other forms of metal detection. The Little Wizard accurately indicates metal buried inside recycled wood by emitting a high pitch beep tone and illuminating an array of LED's. The Little Wizard can pinpoint the exact location of metal. No guessing, extensive physical searching or unnecessary visual searching is needed with the Little Wizard.

To use the Little Wizard II put in a fresh, quality brand 9 volt battery. Turn the unit on, tune it and get familiar with its detection with bare metals. The sweep in a crosshatch manner over wood. We suggest to scan both directions and always scan between cuts.

The Little Wizard is widely used by woodworkers everywhere. It's small size and unique detection strength allow it to be used to quickly detect damaging nails, screws and other dangerous metal buried inside of wood. The Little Wizards adjustable sensitivity makes pinpointing easy and accurate. The Little Wizard precisely indicates metal by emitting a high pitch beep tone and illuminating an array of LED's. There's simply no better economical, portable metal detector made.

**\*\*Does not detect lead shot (sorry hunters). \*\***

But it will save your steel blades and knives.

### Features

SKU	Option	Part #	Price
8043407		WIZARD II	\$75

Model	
Type	Metal Detector
SKU	8043407
Part Number	WIZARD II
