Spare Parts / Consumables	Pin-less Blade Holder suit OT-SS-410 Scroll Saw by Oltre
Warranty	
Warranty	2 Years (Home User) or 1 Year (Commercial User)
Packaging + Shipping	
Shipping Length	660 mm

The OT-SS-410 Scroll Saw is a ‘Specialty Saw’ designed for small, delicate detail cutting. The saw is made of all-metal construction.

The 410mm Scroll Saw is designed for making small, intricate curved cuts in thinner woods that are used in making decorative scrollwork, puzzles, inlays, and craft items. The thin, working blade allows the material being cut to be freely turned in tight arcs, unlike any other power saw. The variable speed DC motor provides variable operating speeds, so adjusting the blade’s cutting action to different materials is easily done with just a twist of the dial. The saw’s 410mm (16”) throat and large machined aluminum table give extra access and stability when sawing large stock. Table also tilts to -45° for making angled cuts. The OLTRE OT-SS-410 machine uses 125mm (5”) long pinned or plain end blades. Includes cast iron base for greater stability, work light, pair of pin-less blade holders.

- Features
- Variable Speed

LED Flexible Gooseneck Work light

Cast Iron Base

Large Aluminium Table

Pair of Pinless Blade Holders - Accepts both Plain and Pin Type Blades
