Festool Beech Tenons are made from all natural, solid beech hardwood for strength and stability. The beech tenon serves as a true floating tenon in mortise and tenon applications such as furniture, cabinetmaking, casing and frame work. The flat, elongated design will not rotate, ensuring perfect alignment for both edge and face gluing. Suitable for both plywood and solid wood applications, the dense beech tenon will not expand or move through material, leaving you with clean, flat, and consistent surfaces. The Domino Tenon is embossed with glue pockets, and is approximately 2 mm shorter than nominal length, allowing space in the mortise for glue.
