SKU	8200189
Part Number	F0133000PM,
Brand	Dremel
Packaging + Shipping	
Shipping Weight (Gross)	1.65 kg

The Dremel 3000 is a versatile rotary tool allowing you to tackle almost any detailed task that requires a perfect finish with just one machine. Featuring a 130W motor and variable speed ranging from 10,000 - 33,000 RPM, the Dremel 3000 is perfect for all-around DIY, home improvement, and hobby projects.

The Dremel 3000 also features the EZ™ Twist nose cap with an integrated wrench that allows the nose cap to be used as a wrench to tighten accessories and eliminates the need for a separate wrench. This feature makes accessory changes up to five times faster than using the standard wrench and ensures you'll always have your wrench at hand.

A more efficient fan design and side vents provide a cooler running tool making it comfortable for extended periods of use while also being smoother and quieter in operation. The tool also features a symmetrical design including a trumpet-shaped nose cap to facilitate a pencil-grip tool hold.

The 130W motor is as well suited to challenging DIY jobs as it is to light finishing touches on wood, glass, stone, metal, and more

The soft grip reduces vibration to prevent fatigue and gives a grip

Control the rotary speed from 10,000 to 33,000 RPM with the variable speed dial for maximum precision

With the EZ™ Twist nose cap, there is no need for a separate wrench
