About this item:

5 Pce 5-10mm SDS+ Deltabit Set

SDS Plus DELTABIT 5 piece set OAL 166mm

The Bordo range of Deltabit SDS Plus and SDS Max solid tungsten carbide head masonry drill bits offer outstanding performance in a wide variety of drilling applications.

Deltabits offer specific advantages over standard SDS masonry bits.

Three edge cutter provides high durability and improved drilling speed.

Tungsten carbide head is permanently bonded to the shank through the use of a unique fusion welding technology, rather than brazing.

Eliminates rifling - drilling holes close to perfect roundness.

Extremely round holes result in improved fastener performance by increasing pull out loads.

More accurate hole starting without bit walk.

Limited circumferential wear.

Drills through reinforcing mesh and reinforcing bar.

hello@beyondtools.com

Minimised bit binding against reinforcing bar - increasing operator safety.
Easily drills through all typical steel decking plate including Bondek®.
Reduced vibration minimising operator fatigue.
Extremely hard wearing for long tool life.
Triple fluted for improved dust extraction.
Asymmetrical five cutter head on a select range of sizes in SDS Max.
