H.B. Fuller Rakoll GXL 3P is a PVA adhesive which is water resistant. This adhesive has a fast setting time and is resistant to high temperatures.

RAKOLL® GXL3P is a PVA glue with water resistance, which meets D3 requirement according to EN 204. GXL3P sets quickly. The set glue joints are very strong and have a good resistance to high temperature. When catalysed, GXL3P exceeds the D4 requirements according to EN 204.

Key Benefits

Comes in a 20kg container

Fast setting time

Suitable on both hardwood and softwoods and chipboards

Can be used for stationary edge gluing on solid wood stripe, veneers and plastic laminates

Uses

Moisture resistant gluing of windows, doors and stairs according to EN204/D3.

Surface bonding of decorative papers. High frequency bonding.

Stationary edge gluing with veneers, plastic laminates and solid wood stripe.

Surface bonding of decorative high pressure laminates in short-cycle press.

Cabinet and assembly bonding with medium pressing times and preheating devices.

Board joint and block gluing of softwood, hardwoods and chipboards

Compatible Substrates

Timber

Plywood

Particleboard

Concrete

Fibre cement sheeting
