SKU	83445
Part Number	WER056490
Barcode	4013288173003
Brand	Wera Tools
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

Combination tool consisting of a ratchet, bits, sockets, and holder in a minimum of space. Ideal as a universal companion for a whole host of screwdriving applications. High-quality bit holder with Kraftform Plus handles for pleasant, ergonomic working that prevents blisters and calluses. Hard gripping zones for high working speeds whereas soft zones ensure high torque transfer. Mini ratchet for rapid working when fastening jobs with a power tool or conventional hand tools is not feasible due to insufficient space. Rapid changeover from left to the right direction and vice versa by using the switchover lever. Fast work is possible by turning the thumbwheel (with the thumb) on the ratchet head. The simplest operation even with just one hand. Ergonomic ratchet head/lever: Kraftform geometry with perfectly shaped contact areas for the fingers. The direct bit take-up in the ratchet head makes for a mini tool design and is ideal for low working heights. The small return angle of 6° allows for precise work. Robust drop-forged, full steel design. Torque of over 65 Nm. The Rapidaptor bit holder with a free-turning sleeve: can be used as an extension; for rapid bit change without any special tools - even the very smallest bits with just a single hand. Tough viscous bits for universal use. Sockets for both manual as well as power tool operations for almost all applications. "Take it easy" Tool Finder with colour coding according to size - for simple and rapid accessing of the required tool. Featuring a good grip to allow easy pick-up even with oily hands. Ball stop groove, for hex head bolts and nuts; chrome vanadium steel, matt chrome-plated.

23 Exhibition Drive, Malaga Western Australia
