Shipping Weight (Gross)	1.48 kg

The UCP90 guide allows a guided cutting, with total stability and precision. Adaptable to all models of Virutex circular saws, jig saws and routers.

It allows to make straight mouldings, grooves... with the routers and a straight and perfectly guided cuts with the circular and jig saws.

Equipped from factory with two fixing systems, allowing a safe holding on the piece to work: two suction pads, for smooth and non-porous surfaces and a set of two clamp screws to be fixed on the lower side of the guide, even if the guide is longer than the panel.

The guide is also provided with non-slip strips to protect the panel from possible scratches.
