

## 7PCE SPANNER COMBINATION JUMBO SET IMPERIAL K3021 BY KINCROME

### 7Pce Spanner Combination Jumbo Set Imperial K3021 by Kincrome

#### Description:-

The range of Kincrome Spanners has undergone exhaustive independent testing, is now 80% stronger than the ASME (American Society of Mechanical Engineers Standard) and 130% stronger than the German DIN standard. The stronger, lighter and greatly enhanced quality of the Kincrome spanner range leaves many name brand competitors in its wake. Improved features include a thinner head allowing the spanner to reach tighter areas, a rounder shaft for a more comfortable grip when applying greater torque, a lighter weight, and the shorter length decreases radial movement by up to 20%. Construction of the range is from forged Chrome Vanadium Steel (Cr-V) hardened, tempered and chrome plated with a slight satin finish for corrosion protection. Increased Molybdenum Manganese and Nickel content provide greater strength and corrosion resistance.

- Forged from Chrome Vanadium Steel (CR-V), hardened, tempered, chrome plated and polished with a light satin finish for corrosion protection
- Ring and jaw offset at 15 °
- Thinner head for hard to reach fasteners
- For heavy duty application
- Increased torque capacity
- Exceeds international ASME & DIN standards

Includes:-

Sizes: 1-1/16, 1-1/8, 1-1/4, 1-5/16, 1-3/8, 1-7/16, 1-1/2"
