CENTROTEC 10MM WOOD SPIRAL DRILL BIT - 492518 BY FESTOOL

Features

The 10 mm Spiral Drill Bit with Centrotec Shank provides a precise, compact, and durable solution for drilling all sorts of wood, glued solid wood, MDF and acrylic glass. Precision ground HSS steel stays sharp longer for precise hole drilling and a long service life. Centrotec shank can also be used with all standard three-jaw chucks for no-slip performance. The Festool Centrotec System is designed to deliver a better transfer of force between the drill and the bit, with no chance for bit slippage or marring of the drill bit. The Centrotec Chuck design enables a full 1/2 pound reduction in weight, and reduces the overall length, or clearance, by nearly 1-1/2 inches. The quick-change Centrotec system delivers a faster, more efficient means of changing bits and driver tips than any keyless chuck system, and virtually eliminates run out.

SKU	Option	Part #	Price
8700703		492518	\$37.5

Model	
Type	Drill Bit
SKU	8700703
Part Number	492518
