11PCE SPANNER DOUBLE RING SET METRIC K3050 BY KINCROME

The range of Kincrome Spanners which has undergone exhaustive independent testing, is now 80% stronger than the ASME (American Society of Mechanical Engineers Standard) and 130% stronger than the German DIN standard. The stronger, lighter and greatly enhanced quality of the Kincrome spanner range leaves many name brand competitors in its wake.

Features include a thinner head allowing the spanner to reach tighter areas, a rounder shaft for a more comfortable grip when applying greater torque, a lighter weight, and the shorter length decreases radial movement by up to 20%.

Construction of the range is from forged Chrome Vanadium Steel (Cr-V) hardened, tempered and chrome plated with a slight satin finish for corrosion protection. Increased Molybdenum Manganese and Nickel content provide greater strength and corrosion resistance. **Contents:**

- Forged from Chrome Vanadium Steel (Cr-V), hardened, tempered, chrome plated and polished with a light satin finish for corrosion protection
- Ring and jaw offset at 45 °
- Thinner head for hard to reach fasteners
- For heavy duty application
- Increased torque capacity
- Exceeds international ASME & DIN standards

Sizes: 6 x 7mm, 8 x 9mm, 10 x 11mm, 12 x 13mm, 14 x 15mm, 16 x 17mm, 18 x 19mm, 20 x 22mm, 21 x 23mm, 24 x 27mm, 30 x 32mm

SKU	Option	Part #	Price
8700879		K3050	\$289

Model	
SKU	8700879
Part Number	K3050
Barcode	9312753920629
Brand	Kincrome
Technical - Main	
Finish	Satin
Material	Chrome Vanadium Steel (Cr-V)
Offset (Degrees)	45
Dimensions	
Product Length	447 mm
Product Width	122 mm
Product Height	122 mm
Product Weight (Net Weight)	3.24 kg
Packaging + Shipping	
Shipping Weight (Gross)	3.24 kg
