Create perfectly smooth surfaces as well as distressed or rough hewn effects. Create exotic textures and add character to your work by simply replacing the standard planer head with one of three rustic heads. Produce fine or coarse wavy textures, or a scalloped effect to mimic a hand-hewn appearance. Spiral cutter engages the material with a slicing action, similar to that of a skewed angle hand plane, generating less chatter and a smoother cut. Self aligning blades make for quick and easy blade changes. Durable solid carbide spiral cutting blade. Long service life. Precision balanced machined aluminium head for smooth, vibration free planing.
