Belts with cloth backing for Stainless steel, Wood, Steel, NF metals.

Abrasive belt CS 310 X – the stable wide belt for surface sanding on hardwood.

The **abrasive belt CS 310 X** by Klingspor sets itself apart by its stability and **good removal rate**. Its tear-resistant X-cloth backing makes this wide belt the perfect fit for processing hardwood and other types of wood, **steel**, stainless steel, NF metals and plastic.

Its stable cotton backing makes this top-tier abrasive belt an excellent choice for any challenging task in all areas of metal and wood processing. It is most commonly used in a fabrication environment, metal and steel construction businesses, coil and sheet metal finishing companies, furniture workshops as well as carpentry and joinery shops. Other users who have come to appreciate the quality and durability of this wide belt include do-it-yourselfers and hobby craftsmen.

**High-quality abrasive cloth with outstanding grain adhesion**

The long-lasting X-cloth backing of the **abrasive belt CS 310 X** by Klingspor reliably delivers a long service life during use on wide belt sanders and a large number of other stationary and hand-held machines. Thanks to its excellent grain adhesion, the abrasive wears down at an impressively slow rate. This wide belt is available in a large selection of grit sizes. The comprehensive range of available grit sizes makes this product equally well suited for dry rough and calibration sanding on edges and surfaces as well as fine and

ultra-fine sanding on wood, **steel** and other types of material.

**The abrasive belt CS 310 X as a special product with a close coating**

This wide belt with cloth backing owes its durability and **good removal rate** to its close coating and premium synthetic resin bond. This bond ensures that the aluminium oxide grain will securely stay in place on the **tear-resistant cotton backing** with X-cloth even when subjected to high loads. Klingspor carries the abrasive cloth CS 310 X as a wide belt, short belt and narrow belt option as well as a spiraband with a conical shape. This wide selection makes it possible to combine this premium abrasive cloth with pedestal sanders, surface grinding machines and parquet sanding machines.
