## SOFT FACE HAMMER 25MM POLYTHENE/NYLON - K9017 BY KINCROME

\$39.95 inc. GST

### Features

Kincrome Soft Face Hammers are generally used when a softer blow is called for than that delivered by a Metal Hammer

Soft Face Hammers are typically used to form sheet metal as they generally don't leave marks

Polythene Heads are ideal for use on soft metals such as aluminium

Nylon Heads are ideal for use on harder metals such as steel

Light weight Aluminium Die Cast Handle & Head

Available In 3 Sizes: 25mm, 38mm & 50mm

Replaceable Polythene (Black) and Nylon (White) Heads available separately To replace head unscrew the hammer head by rotating counter clockwise. If tight place in a vice or use multi grips, insert the head by rotating clockwise until tight.
