472ML METAL CUTTING FLUID XTRA-THICK & XTRA-FOAMY BY TAP MAGIC

SKU	Option	Part #	Price
8703699		TAP70016E	\$55

Model	
Type	Cutting Fluid
SKU	8703699
Part Number	TAP70016E
Barcode	662387700166
Brand	Tap Magic
Size	472ml
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The extreme performance heavyweight champion for hard metals – iniconel, titanium, stainless...any metal up to 45 Rockwell hardness! Virtually eliminates work hardening. Clinging action means it stays with the tool for deep cuts on heavy gauge materials and for lathe and mill work because it isn't prone to slinging off. Also available in 12 oz aerosol: Xtra-Foamy!

A high-visibility, foaming action cutting fluid with the proprietary additive EP-X³® for extreme performance on the hardest metals – even those up to 45 RC. The high-visibility foam allows you to conveniently gauge application rate and fluid presence. Clinging action stays with the tool longer. Eliminates work hardening. With the added power of EP-X³, our extra foamy cutting fluid gives you high visibility on the most difficult metals and applications. Even if you're cutting into stainless, titanium, iniconel, or other extremely difficult metals, you'll still have the precise cutting provided by Tap Magic. **Applications** Highly effective for drilling, tapping, milling - all cuts on all metals. Especially suited for: **•** Cuts on hard metals such as iniconel, titanium, and stainless. **•** Deep-hole cuts (eliminates work hardening). **•** Lathe and mill work (fluid clings to work). **•** Pipe threading. Highly effective for all cuts on all metals. Especially suited for high-nickel alloys, iniconel, stainless, titanium and other hard metals up to 45 RC.
