Do not use this tool on materials that are under tension. Do not use this tool on materials that are under pressure. Do not use this tool on materials that are under heat. Do not use this tool on materials that are under vibration. Do not use this tool on materials that are under stress. Do not use this tool on materials that are under strain. Do not use this tool on materials that are under load.

Cranked (angled) flat chisels are ideal for removing tiles and similar products.

The angled chisel head reduces operator fatigue by allowing a more ergonomic working position.

Constructed from hard wearing tool steel for a long service life.

Easily resharpened.

SDS Plus - Suits all Rotary Hammers fitted with an SDS Plus chuck.
