Type	Dust Extractor / Vacuum Filter
SKU	8705551
Part Number	205412
Barcode	4014549375235
Brand	Festool
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

Working without the dust

HEPA Main Filter for use with CT 26, 36 and 48 Dust Extractor. The highest standard for filtration, HEPA filters capture 99.99% of all particulate matter down to .3 microns. HEPA filters (High Efficiency Particulate Air) have quickly become the new standard for wood dust collection, both in the workshop and on the jobsite. Measured in microns, wood dust is particularly troublesome to remove from an environment once it is airborne. Eliminate the majority of the dust created at the source before it is ever released into your environment. Designed to trap particles down to .3 microns while maintaining airflow, allowing you to reach full capacity without clogging or caking.
