Part Number	WE-50030
Barcode	058951500308
Brand	Weldbond
Size	3L
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

Weldbond is non-toxic, non-flammable, free of fumes, has low VOC's

and is environmentally friendly.

Carries the EcoLogo™ seal of approval - certifying that it is created without the

use of formaldehyde, toxic metals or excessive VOCs.

Weldbond Universal Adhesive can be used in various applications as a glue,

bonding agent, sealer or primer. It's high solid content means that it can be easily

diluted and is an economical alternative to traditional products in the market.

Weldbond dries clear and flexible and is therefore ideal for use with woods and

fabrics as no glue lines will show and the glue will bend with movement. It is

non-staining and will not become brittle with age.
