Shipping Weight (Gross)	1.48 kg

For transferring a measured angle to a work piece for cutting or machining. The blade can be tightened by the wing screw at the end. This can also double as a hanging hook for storage.

Features:-

- Steel blade
- Hardened blade
- Flexible blade
- Aluminium body

Used for setting and transferring angles

Comfortable metal handle with an end screw for locking bevel in the required position

The bevels are designed to create a bevel edge with ease or replicate an existing angle, such as on stairs

Used for transferring a measured angle to a work piece for cutting or machining

The blade can be tightened with the wing screw at the end, this also doubles as a hanging hole in storage
