Features

Woodworking clamps at their finest

Parallel jaw action securely grips anywhere on the jaw surface for edge use and for non parallel clamping

The sliding jaw features two non slip devices for safer and more secure clamping up to 7,000N compression

Fully heat treated six sided serrated and profile rail for grip and strength

Removable protective plastic jaw caps

Sliding jaw may be used reversed for use as a spreader 255-1355mm

When on its back, the clamp easily converts to a sash clamp

Clip on/off contact elements on the rail protects both the work piece and rail

Blackened wear resistant cold drawn square acme threaded spindle for a long clamping life

Comfortable two component handle

Glass fibre reinforced jaws are glue and solvent resistant

The TK6 Table Clamps may be used to secure to a bench or table top
