Bessey has redesigned their ever-popular and well-known K-body clamp and introduced the KRE Body Clamp. It has a powerful clamp thanks to its metal-reinforced plastic housing and optimised sliding arm. The large clamping surfaces, which sit at right angles to the rail, have three removable and glue-resistant protective caps, making clamping objects and panels square and flat easier than ever before.

These are the new go-to clamps that are capable of clamping and spreading.

Features:

- Very large parallel clamping surface
- With 3 pressure caps to protect delicate surfaces
- Can be converted to spreading function with no need for tools
- High quality 2 component plastic handle

Specifications:

- Throat 95mm.
- Clamping Range 1250mm.
