Get outstanding dispensing force for tough applications and the most bead control in any cordless gun. Deliver caulk or adhesives smoothly and steadily, even with the highest viscosity materials, with the incredible pushing force of the M18™ Cordless 600ml Sausage Style Caulk Gun Kit. All-metal gears provide an industry-leading 4,500Nm of force, and CFT Constant Flow Technology eliminates motor oscillation for steady dispensing and even beads at all viscosity levels. A variable-speed trigger and six-setting maximum speed dial optimise the tool's 0-212.54ccpm flow rate. The exclusive MILWAUKEE® anti-drip mechanism prevents oozing of excess material when the trigger is released. **Features:**

All-metal gears: Deliver industry-leading 4500Nm of dispensing force for the highest viscosity materials
REDLITHIUM-ION™ Battery Technology: Superior pack construction, electronics, and performance deliver more work per charge and more work over pack life.

Variable-speed trigger: Allows for maximum flow-rate and bead-width control

CFT™ Constant Flow Technology: Offers steady flow rate and even beads at all viscosity levels

Anti-drip mechanism: Instantly stops material from dripping upon trigger release

Rotating quick-change collar: Accepts all Milwaukee® quick-change configurations: 310ml carriage, quart-size carriage, and 600ml sausage barrels

6-Setting max speed dial: Optimises flow rate from 0-212.54ccpm
