### About this item:

5/16" Hand Taper Pin Reamer

Bordo Taper Pin Reamers are made from premium HSS.

They are straight fluted.

1:50 inclination (taper) for metric sizes and 1:48 inclination (taper) for fractional sizes

As the name suggests, Bordo Taper Pin Reamers are used for securing tapered pins, which are used to secure steel plates and blocks together.

They are typically held in a tapping or similar wrench.
