6MM COMBINATION GEAR SPANNER METRIC SINGLE WAY K31065 BY KINCROME

The Kincrome Gear Spanner has all the benefits of standard spanners and more. The strong fine gear ratcheting ring end needs as little as $5\,^\circ$ of sweep to move fastener, a standard fixed ring end needs a minimum of $30\,^\circ$, or 6 times the area. The narrow and thin head, combined with fine gear tooth design makes the Kincrome Gear Spanner suitable for working in tight and hard to access areas where a ratchet and socket will not fit.
