Dimensions	
Product Length	178 mm
Product Width	48 mm
Product Height	280 mm
Product Weight (Net Weight)	1.43 kg
Packaging + Shipping	
Shipping Weight (Gross)	1.429 kg
Quantity Per Pack	12

The Kinchrome Gear Spanner has all the benefits of standard spanners and more. The strong fine gear ratcheting ring end needs as little as 5 ° of sweep to move fastener, a standard fixed ring end needs a minimum of 30 °, or 6 times the area. Kinchrome Gear Spanner ratcheting ring end has a Peripheral Drive™ configuration that virtually eliminates the rounding off of fasteners. The narrow and thin head, combined with fine gear tooth design makes the Kinchrome Gear Spanner suitable for working in tight and hard to access areas where a ratchet and socket will not fit. Combined with the 'Fine Tooth' technology Kinchrome Gear Spanners are the 'state of the art' in spanners, and come with a handy plastic storage case.

The ratcheting open end feature allows increased working speed, eliminating the need to remove the spanner from the fastener after each turn

The wide jaw configuration allows faster and easier engagement with the fastener and the 'Anti Slip' pawl design provides greater surface contact to protect and help prevent rounding of the fastener

The ratcheting ring feature allows increased working speed, eliminating the need to remove the spanner from the fastener after each turn

With a 0 ° offset, the Gear ring head has directional arrows on both sides indicating either forward or reverse direction

To change direction simply turn the spanner over

Includes:- 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19mm
