Standard Inclusions	1 x Carbide RIFF sanding plate AVZ 78 RT2
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg
Quantity Per Pack	4

The 4-piece Tile Set is a versatile collection for various tile applications. Each Starlock blade is individually selected for performance and value in this set. The four Starlock accessories enclosed allow for sanding, grout and tile routing, scraping and plunge cutting. The Carbide-RIFF segment saw blade is designed particularly for work such as routing joints on wall and floor tiles and smaller cutouts in soft wall tiles.

The plunge blade is for plunge cutting soft metal like copper pipes. The sanding plate and scrapers are perfect for removing mortar, tile adhesive and concrete residue. The set is made for work in grout, mortar, residues, joints and copper. All Starlock, Starlock Plus and Starlock Max power tools as well as common multi-tools are compatible with the accessories.

The Starlock Snap-In mounting system allows fast blade removal and exchange within 3 seconds without having to touch the blade. The mounting system produces the highest power transfer thanks to a 3-dimensional tight-fitting connection between machine and accessory. **Features:** 4 Starlock accessories for sanding, routing, scraping and plunge cutting

Starlock Snap-In mounting system for fast blade removal and exchange within 3 seconds without having to touch the blade
