Achieving a perfect finish

Soft interface pad for sanding delicate surfaces such as profiles and contours. The lightweight foam adapts to curves and contoured surfaces delivering a consistent finish. All Festool pads are designed with dust extraction as a primary consideration, so you'll work cleaner, produce a better finish and significantly extend the life of your abrasives and pads. Festool pads feature the StickFix hook and loop design for quick and efficient abrasive changes, and enable re use of partially used abrasives.
