The only universal tool of its kind on the market, the cordless MILWAUKEE M12 HAMMERVAC Universal Dust Extractor delivers HEPA-standard debris filtration at the lowest cost of ownership. The HAMMERVAC's universal handle system is compatible with major brands of SDS Plus rotary hammers and AC/DC hammer drills, so users can drill safely into concrete and masonry without purchasing a new drill. It features a certified HEPA filter that is replaced independently of the dust box, enabling users to maintain powerful suction at a low cost. In auto-on mode, the extractor turns itself on and off as you work for maximum productivity. Powered by an M12 REDLITHIUM-ION Battery (sold separately), the HAMMERVAC provides filtration for up to 160 holes on a single charge. For even longer runtime, utilise the M12 High-Capacity REDLITHIUM-ION Battery (sold separately). Includes a HEPA filter, nozzle, 3 side-handle clamping collar assemblies and a carrying case.

Features:-

The MILWAUKEE® REDLITHIUM™-ION Battery Pack is the most durable pack on the market delivering more run-time, power and longer battery life.

Powerful dust extraction: Reduces the potential for silica dust inhalation by user.

Universal handle system: Compatible with major brands of SDS Plus rotary hammers and AC/DC hammer drills.

Replaceable certified HEPA filter: Provides high-quality debris filtration at lowest cost of ownership.

Versatile side handle: Can be tightened in multiple positions for work in tight spaces.
