Shipping Weight (Gross)	0.0 kg

Multibond SMX50 is a high quality, fast curing, single component flexible adhesive and sealant with high adhesive strength. Perfect for internal & external applications. Based on SMX® Polymer Multibond SMX50 has a "Shore A" hardness of 40 ideal for trafficable joints and can accommodate movement of ± 20%. Multibond SMX50 has excellent UV resistance, elasticity and can be sanded and painted with most types of paint. Once cured forms a strong, flexible, waterproof seal and bonds to the widest range of substrates see below. Multibond SMX50 can be used for damp and wet surfaces.

Features & Benefits:-
Fast curing
Sealing & bonding
Internal & external
Trafficable
UV Resistant

Application:-
For trafficable expansion joints
For trafficable pavement floors and perimeter joints,
Joints under waterproofing membranes (water-based, solvent-based and acrylic)
For sanitary, bathroom and kitchen areas (resists mould growth)
For lap joints in roofing, guttering and cladding
For air conditioning ducting
For caravan, bus, automotive use
