Brand	GearWrench
Technical - Main	
Imperial (SAE) / Metric / Torx	Metric
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The GEARWRENCH ratcheting combination wrenches are the original patented ratcheting wrench! The ratcheting box end is designed to need as little as 5° to move fasteners versus 30° for standard wrenches. The wrenches are made from strong alloy steel with a bright, full polish chrome finish. The ratcheting box end features off-corner loading for a better grip on the fastener and reduces fastener rounding. They're available in various lengths and styles, including: XL length, stubby, flex, stubby flex, and locking flex.

Features:

- 72-tooth ratcheting box end needs a minimal 5° to move fasteners vs. 30° for standard wrenches
- Off-corner loading design on box end provides better grip and reduces fastener rounding
- Thin head and beam provide greater access in confined work areas
- Size conveniently stamped on both ends of the beam for quick identification
- Manufactured from alloy steel for better strength and longer tool life
- Bright, full polish chrome finish easily wipes clean and resists corrosion
- Longer beam provides greater access to confined work areas vs. standard length wrenches
- Meets or exceeds ASME and ANSI specifications
- Included rack for storage and organization

Specifications:

Prop 65 : WARNING: This product contains or produces a chemical known to the State of California to cause cancer and birth defects or other reproductive harm.
ASME Specification : B107.100-2010 (B107.66)
