Barcode	9314028203246
Brand	Josco
Packaging + Shipping	
Shipping Weight (Gross)	0.55 kg

Double-Cut (D-Cut) Carbide Burrs are ideal for cutting stainless and carbon steel, plus other hard metals. They are an excellent die grinder accessory for metal removing, deburring and weld cleaning. It is the most popular, universal cutting style and offers smooth operation, high cutting action, produces no short chips and no clogging problems. A D-Cut flame burr is designed for deburring and finishing on round/curves surfaces in steel dies, forgings, castings and metal patterns.
