Kincrome IronKore club hammers are designed for the toughest tasks. During their creation, they were put through the toughest testing, including being crushed by a 52 Ton Centurion WWII Tank and survived. The heated and treated carbon steel head with dual striking faces allows for a lifetime of striking and the confidence to get any job done. The handle, reinforced with 4 steel bars inside, adds strength and creates an unbreakable hammer. You break it, we replace it.

### Features

UNBREAKABLE GUARANTEE\*

Hot rolled steel core

Textured rubber grip for improved shock absorption

Strike zone for increase strike accuracy

Dual striking faces

Fully Welded Construction

Heated Treated Carbon Steel Head

Head to core separation can withstand up to 10 tonne of force

4 x 5.5mm reinforced steel bars, fully welded, with 4 fixed retaining plates

Creates an unbreakable handle "if you break it, we replace it\*."
