The 500mm (20") Heavy Duty Floor Fan is packed with features to assist and help you get the job done comfortably. Features such as an energy efficient induction motor, 3 speed switch, high velocity air flow, heavy duty constructed frame, drum & safety grills, 5 aluminium blade construction & tilt function. The 5 aluminium blade construction is different to what is conventionally seen in the market delivering up to 5% more air velocity to most standard 3 blade fans available. With a cool air velocity of 110m³ per minute this unit is perfectly suited to ventilating small to medium areas inside or when in a covered areas can be used outside. The tiltable drum body enables you to position the fan where needed and tilt the fan body allowing you to ventilate almost any area you need. The fan comes fully assembled and ready to go straight from the box which means no down time having to assemble it once you get home or onto the job site. The entire KINCROME fan range complies to all safety and standards requirements including testing conducted to tropical class T clause. KINCROME Heavy Duty fans are built tough and will last the distance when using them out in the field.
