Overview

Spots Further, Lasts Longer – The New TRUEVIEW™ M12™ LED Spot Light gives professionals the most portable, high performance spotlight to illuminate, identify, and diagnose on and off the jobsite. The M12SLED has a beam distance of 640M, offering the ability to spot objects and areas a long distance away. It has high and a low output modes of operation for long distances, more clarity in closer situations, as well as a strobe mode for safety situations. The M12™ LED Spot Light can run for up to 4 hours in its high mode with an M12™ REDLITHIUM™ 4.0Ah Battery Pack, and up to 8 hours in low and strobe modes. The M12SLED is impact and water resistant to survive professional use, and it features an
