### Features:

RFC (Reactive Force Control) is a new safety function that alleviates the danger caused by high torque. RFC senses if the bit locks and reduces the output power to reduce kickback

High rotation and work speed for increased efficiency

Brushless motors provide increased power, performance, durability and longer battery run time per charge to handle bigger workloads with less downtime

Electronic switches are more efficient in transferring energy resulting in longer battery and tool life

13mm single sleeve metal keyless chuck with automatic spindle lock provides high strength & effortless usability

2 speed gearbox with all metal gears ensures maximum power, performance and resilience

22 stage adjustable clutch allows for a precise adjustment when driving screws
