

19PCE COMBINATION SPANNER SET METRIC K3036 BY KINCROME

The range of Kincrome Spanners has undergone exhaustive independent testing, is now 80% stronger than the ASME (American Society of Mechanical Engineers Standard) and 130% stronger than the German DIN standard. The stronger, lighter and greatly enhanced quality of the Kincrome spanner range leaves many name brand competitors in its wake. Improved features include a thinner head allowing the spanner to reach tighter areas, a rounder shaft for a more comfortable grip when applying greater torque, a lighter weight, and the shorter length decreases radial movement by up to 20%. Construction of the range is from forged Chrome Vanadium Steel (Cr-V) hardened, tempered and chrome plated with a slight satin finish for corrosion protection. Increased Molybdenum Manganese and Nickel content provide greater strength and corrosion resistance.

Contents:

Sizes: 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24mm

SKU	Option	Part #	Price
8720706		K3036	\$315

Model	
Type	Spanners / Spanner Set
SKU	8720706
Part Number	K3036
Barcode	9312753013222
Brand	Kincrome
Technical - Main	
Finish	Satin
Imperial (SAE) / Metric / Torx	Metric
Material	Chrome Vanadium Steel (Cr-V)
Offset (Degrees)	15
Dimensions	
Product Length	350 mm
Product Width	115 mm
Product Height	80 mm
Product Weight (Net Weight)	2.45 kg
Packaging + Shipping	
Shipping Weight (Gross)	2.45 kg
