Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The M18 FUEL® 180mm Variable Speed Polisher is the world's first cordless full-size rotary polisher. By harnessing the power, performance and run-time of M18 FUEL® technology, this tool delivers corded performance that allows users to power through the most demanding applications. At more than 450g lighter than corded, and the ability to deliver total control through a variable speed dial and trigger, the new M18 FUEL® Polisher frees users from the extra work, distractions, paint damage, and inconvenience caused by cords. Paired with M18™ 5.0Ah REDLITHIUM®-ION batteries, the M18 FUEL® Polisher can complete a full size car on one charge when working on moderate to good paint. The M18 FUEL® Polisher is equipped with a rubber over mold front housing to protect the paint from scratches in use as well as a removable dust cover to protect the motor and electronics from wool fibers and residue. The new tool is designed to distribute more of its weight over the pad, providing natural pressure on the surface area and more.

Features:

The Milwaukee® REDLITHIUM®-ION Battery Pack is the most durable pack on the market delivering more run-time, power and longer battery life.

Variable speed dial and trigger.

Lock-on function provides more comfortable use when polishing for longer periods.

Removable dust screen to prevent debris ingress, prolonging motor life.

Rubber overmold gear case for increased comfort.
