Josco 50mm x 8mm Stainless Steel High Speed Decarbonising Brush is ideal for removing rust and corrosion from stainless steel, brass, aluminium, plastic and wood. 316 Stainless Steel is ideal for harsh Australian conditions. With increased resistance to corrosion in marine environments, this decarb brush is tough and durable.

The 230 series of decarbonising brushes are now all rated as high speed, and are excellent for decarbonising in automotive applications. Suitable for use with die grinders, air tools and drills.
