Brand	Gearwrench
Packaging + Shipping	
Shipping Weight (Gross)	2.0 kg

The GEARWRENCH combination wrenches are durable tools for most jobs. They are made from alloy steel with either a full polish or satin finish that resists rust & corrosion. The off-corner loading design on both ends provides a stronger grip on fasteners, reduces fastener rounding, and delivers up to 25% more torque to the fasteners. Sizes are stamped on the beam for quick, easy, & permanent identification. The box end is offset 15° for increased access to fasteners. Available in stubby & long pattern lengths and 6 & 12 point, the GEARWRENCH combination wrenches are a must have for every toolbox.

### Features

15° offset for better access in tight spaces

Off-corner loading design on box end provides better grip and reduces fastener rounding

Stubby beam length for when clearance is limited

Bright, full polish chrome finish easily wipes clean and resists corrosion

Meets or exceeds ASME specifications
