Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The Domino connection Systainer provides all parts of the corner and flat connector system – sufficient parts for 32 corner connectors and 16 flat connectors. The corner and flat connector system for the DOMINO XL DF 700 joining machine enables stable connections that can be separated again at a material thickness of 30 mm or higher. Extremely quick thanks to ease of use, no template or other accessories required.
