Brand	Arbortech
Packaging + Shipping	
Shipping Weight (Gross)	1.48 kg

The *Ball Gouge™* is a unique grinder attachment that can rapidly hollow small concave surfaces in woodworking projects. It has a 30mm diameter ball-shaped cutter, that attaches to the *Power Carving Unit™* or any standard 100mm (4") or 115mm (4.1/2") angle grinder. It is specifically designed to provide exceptional control, balance and performance in freehand wood shaping and carving.

UNDER CUTTING AND HOLLOWING OUT

The *Ball Gouge™* is ideal for carving smooth hollows in wooden spoons and creating concave features for bowls and other small to medium projects.

TEXTURING

Not only is the spherical shape perfect for multi-directional freehand shaping, but it also makes it ideal for achieving a range of different textures.

FREE-FORM SHAPING

The *Ball Gouge™* is ideal for free-form carving in small to medium wood projects. Carve in any direction without compromising on control. Quickly achieve concave surfaces in spoons and small bowls. Hollowing out and undercutting is now easier than ever and finishing off your project with beautiful chiseled textures is a breeze!

CONTROL AND BALANCE

Engineered to provide exceptional control, balance, and performance. It has Anti-Grab Technology which helps prevent the tool from digging, so you have better control over the look and finish of your woodworking project.

Includes:

1x *Ball Gouge™*

1x Allen Key

Specifications:

Angle Grinders: 115mm (4 1/2") and

125mm (5")
