The SAWZALL™ Blades 32-Pack provides optimal versatility across a range of materials and applications. Including a wide range of Milwaukee® SAWZALL™, you will have a set of blades that will last longer, cut faster and be more durable on the jobsite.

### Features:

#### WOOD CUTTING BLADES

**Nail Guard™** - Ordinary teeth deliver either speed or durability. NAIL GUARD™ solves this trade-off with an aggressive 5 TPI pattern for faster cuts and a unique design that protects against tooth fracture.

**FANG TIP™** - Ordinary tips bounce or skate on the work piece. The FANG TIP™ bites into wood on first contact.

#### THIN KERF GENERAL PURPOSE BLADES

Double angle relief reduces tooth stress for longer life. Precision forming process for sharper teeth and faster cutting

#### THE WRECKER™ BLADES

Hardened teeth for increased life in nail-embedded wood and thick metal.

Nail protecting feature built into the tooth design.

Fast plunging tip.

#### THIN KERF METAL CUTTING BLADES

**Tough Neck™** - Ribs strengthen the blade tang and minimise breakage.

Optimised tooth design.

#### THE TORCH™ BLADES

**Grid Iron™** - Honeycomb pattern increases blade rigidity to resist blade buckling
