32.5mm (M6-M32) Stepped Drill Bit 48899332 By

Milwaukee The Milwaukee ® line of step drill bits far surpasses the competition. With a single cutting edge design, you will have more control and a cleaner finish. Made of high-speed steel, these new step drill bits are durable and designed to drill through most metals. The black oxide finish prevents corrosion and has a great capacity to work with drilling lubricants. The new speed start tip prevents bit walking and allows faster penetration. With laser etched markings you will always know your hole sizes...no guesswork! **Features:-**

- Single Cutting Edge provides true round holes every time
- High Speed Steel Make-up is ideal for cutting into stainless steel, aluminum, brass, copper, plastic and more
- Black Oxide Finish resists corrosion for longer life
- Speed Start Tip starts fast and reduces the risk of bit walking
- Laser Etched Markings for fast, easy hole size identification
- 3-Flat Shank prevents bit from slipping in the chuck
