Shipping Weight (Gross)	1.48 kg

This 2-Stage telescopic hydraulic **TradeQuip "Made for the Trade"** Transmission Lifter offers a wide range of versatility designed to help increase workshop productivity. For use with car and light truck transmissions. The universal mounting cradle provides a wide fore and aft tilt range. A wide base is enhanced by four heavy-duty steel swivel castors and both a ring handle and a pull bar for easier manoeuvring throughout the workshop. Has a manual operated hydraulic system with smooth hydraulic lift and descent. The foot operated pump and release valve keep the mechanic's hands free during use. The height adjustability of this telescoping transmission lifter makes it great for any transmission installation or removal.

Features

Frame is constructed of high-grade steel and built to exacting standards for quality and durability

Lead-free paint finish is applied after a thorough chemical wash to ensure a long-lasting finish and to help prevent rust
Paint is oil, grease and dirt-resistant for easy cleanup

Universal mounting cradle provides a wide fore and aft tilt range

High quality large diameter hydraulic steel cylinder unit results in lower oil pressure needed to lift load

Piston-ram is treated and polished to reduce wear and extend service life

Safety You Can Count On

No need to worry about weight failures; this heavy-duty jack includes two heavy-duty safety anchor chains that are specially designed to secure the load, no matter what else happens.

Tilting Head Offers The Perfect Mounting Angle

The universal mounting head provides a wide fore and aft tilt range that helps you get the load in perfect position. The 15 °

forward tilt of the head combines with an aft tilt of 7 °. But the fine-tuning doesn't stop there a lateral adjustment knob allows control of the side-to-side fine adjustment as well.

Versatility And Portability To Match Your Needs

Positioning this jack is just a one-person job. The sturdy base includes four heavy-duty steel casters that swivel a full 360 °, adding effortless maneuverability. Once your jack is in place, the smooth, manual-operated hydraulic system makes easy work of lifting and lowering.

Use It Day In And Day Out

The telescoping transmission jack is the perfect choice for use with car and light truck transmissions. The widened front stance makes this jack more stable under vehicles, and an oversized saddle increases contact area with the load for a sure hold on most loads.
